Here in the City of Miami, the past few years have been defined by growth. We have seen growth in our resident population, growth in local economic activity, growth in the City's property values, and growth in the City's financial position. As we look forward to continued growth in the years to come, it is important that we have a plan in place to meet the needs of our growing city and to maximize the impact of newly available resources.

The City of Miami's Strategic Plan is a citywide plan that sets the course for strategic growth over the coming three years. The plan is developed around three major elements:

- Strategy development - identifying the City's highest priorities for the next three years
- Performance management - measuring progress toward achieving our goals
- Public engagement - promoting ongoing communication with stakeholders and the public

The City's strategic planning process involved input from external stakeholders representing various sectors of our community. We hosted focus group meetings on different strategy areas with representatives of over 35 public, private, not-for-profit, academic, and civic organizations. We also administered a citizen survey to get input from the residents of our City. Through these outreach efforts, it became clear that the highest priorities for our community are public safety and economic development; and these priorities are reflected in the goals and strategies outlined in the Strategic Plan.

The City of Miami’s Strategic Plan will be a living document; it will be updated each year to reflect new accomplishments and changing priorities. As annual updates are developed, we will continue to engage the community in the planning process. Through ongoing communication and collaboration, we will ensure that our strategic plan reflects not only the priorities of the City’s administration, but also the priorities of the community that we serve.

Sincerely,

Daniel J. Alfonso
City Manager

**VISIOn**

The City's leadership envisions Miami as:

- a world-class city with a commitment to public engagement and excellent service delivery;
- a diverse and vibrant community with a high quality of life;
- and a global destination for business, culture, and leisure.

**CORE VALuES**

- Integrity
- Accountability
- Commitment
- Teamwork

**QUICK FACTS**

- Year of Incorporation: 1896
- Land Area of City in Square Miles: 35.87
- Estimated Daytime Population: approximately 1 million
- FY2015 General Fund Budget: $559.9 million
Background
In the recent years following the national recession, the City of Miami has seen a notable improvement in the local economy as well as the City’s financial position. Based on data published by the federal government, the City’s population and the local labor force have both grown since 2010. Also, development activity in the City has increased dramatically in the past year. The City’s Adopted Budget for Fiscal Year 2014-2015 estimates that revenues will be 11% higher this year than they were in their lowest year during the recession.

As the economy and city revenues continue to rebound, it becomes increasingly important to establish a plan for meeting the needs of the growing City and making the best use of newly available resources. As such, the City developed and launched its Strategic Planning Initiative in the summer of 2013. The organization-wide initiative encompassed three major elements:

- **Strategy Development**: Identifying the City’s highest priorities for the next three years, and communicating these goals through the organization and the community
- **Performance Management**: Measuring progress toward achieving the identified goals, and communicating results with stakeholders
- **Public Engagement**: Promoting ongoing interaction and open communication with stakeholders and the public

Strategic Planning Process
The process of developing the City of Miami’s Strategic Plan began in June 2013 and included participation from a wide variety of stakeholders.

- **The opinions and priorities of Miami’s residents**, as reflected in the 2014 Miami Citizen Survey, served as a critical guide in the development of the City’s Strategic Plan.
- **City employees** provided input through one-on-one meetings, focus group sessions, and an electronic employee survey.
- **Community partners**, representing governments, civic institutions, nonprofit organizations, and the private sector, participated in focus group sessions to provide their perspectives on the priorities of the community.

Strategic Plan Priority Areas
Over the course of the City’s Strategic Planning process, six priority areas were identified. These priority areas represent the functional avenues through which the City seeks to achieve its mission and vision.

- **Public Safety**: Creating and sustaining a safe environment for residents, businesses, and visitors of the City of Miami
- **Clean and Beautiful Neighborhoods**: Creating beautiful, vibrant, and environmentally sustainable communities
- **Growth and Development**: Promoting development and sustainable economic growth in the City of Miami
- **Education and Economic Access**: Increasing economic access and improving social outcomes among all City of Miami residents
- **Culture and Recreation**: Strengthening Miami’s reputation as a global destination for arts and culture, and providing residents and visitors with opportunities for leisure, recreation, and cultural exchange
- **Efficient and Effective Government**: Delivering high-quality, effective services to customers in a timely and cost-effective manner

The following sections of the Strategic Plan highlight the key objectives in each of these six priority areas, as well as sample strategies for achieving these objectives and key performance measures for tracking progress. The full list of objectives, strategies, measures, and targets can be found in the detailed appendix available at www.miamigov.com/citymanager/strategicplanning.

Creating and sustaining a safe environment for residents, businesses, and visitors of the City of Miami

Public Safety Overview

One of the most important goals of City government is to ensure the safety of its residents and visitors. Having a safe and healthy environment to live, work and play is a critical component of the quality of life in any community. The safety of Miami’s communities also plays a part in attracting new residents, businesses and visitors. Miami’s police officers and firefighter-paramedics are highly trained in responding to emergency situations. In addition, the City’s planners, engineers, inspectors, code compliance officers, and road and sidewalk crews, along with various other employees, play an important role in ensuring the safety of the public.

Clean & Beautiful Neighborhoods

Overview

The City of Miami has developed an international reputation for its natural beauty, its strong urban design, and its rich cultural diversity. Creating and sustaining beautiful and vibrant communities is one of the major priorities of the City’s leadership. Clean and beautiful neighborhoods, with well-maintained infrastructure, enhance residents’ quality of life, and can also promote growth in tourism and economic development. Furthermore, a focus on sustainability will help to ensure that the City remains beautiful and vibrant for years to come.

Promoting development and sustainable economic growth in the City of Miami

Growth & Development Overview
With over 400,000 residents and an estimated daytime population of approximately 1,000,000, the City of Miami is at the heart of one of the nation’s largest metropolitan economies. Residents responding to the Miami Citizen Survey identified the economy as one of the highest priorities for the City’s future. Indeed, the strength of Miami’s economy improves the quality of life for residents and also reinforces the economic strength of the entire region. One of the top priorities of the City’s leadership is to promote the continued physical and economic growth of Miami, and to develop the infrastructure necessary to sustain this growth.

EDUCATION & ECONOMIC ACCESS

Increasing economic access and improving social outcomes among all City of Miami residents

Education & Economic Access Overview

South Florida was among the regions hardest hit by the Great Recession. With this downturn in the economy, Miami saw higher rates of unemployment and poverty along with lower median incomes. As the economy recovers, one very important goal of City government is to ensure that all residents have access to the resources necessary to achieve economic success. In cooperation with other government entities, as well as the private and not-for-profit sectors, the City’s administration seeks to improve economic and social outcomes for all members of our society.

CULTURE & RECREATION

Strengthening Miami’s reputation as a global destination for arts and culture, and providing residents and visitors with opportunities for leisure, recreation and cultural exchange.

Culture & Recreation Overview

Miami is recognized internationally as a destination for arts, culture, and recreation. The City’s parks, beaches, galleries, museums, and various entertainment venues are among the assets that attract visitors all year long. Not only do these opportunities for leisure and recreation attract visitors from around the world, but they also enhance the quality of life for the City’s residents. One of the goals established by the City’s leadership is to support the continued growth of arts and culture in Miami, and increase resident access to cultural and recreational activities.
