

**GUIDE TO USING THE OFFICIAL REGISTRATION FORMS****Form R.0**

Revised. 03-01-2023

The City of Miami Building Department requires the use of our own forms for Private Provider-related functions, including company registration. All documents are designed to be in compliance with Chapter 553.791, F.S. "Alternative Plans Review and Inspection" regulating the use of Private Providers. To avoid unnecessary difficulties with our permitting and inspection processes, these documents must be executed properly. Please read carefully. We reserve the right to reject any and all documentation that is inaccurate or not legible.

Registration Documents:

Private Providers must register their firm with the City of Miami, and are advised to complete the registration process before attempting to submit documents for permitting. Private Provider firms may not provide building code inspection services until their qualifications have been verified by the Building Department staff. *Registrations are renewed annually each March or as required by the Building Official.*

Please note: These documents are to be used for initial registration or renewals only— not for each project to be permitted.
